- In Windows Explorer (go to Computer or My Computer), look at the folders on your Nook and delete the one named .adobe_digital_editions (it may ask if you want to permanently delete it -- yes, you do).
 - Go to Computer or My Computer, right-click the Nook drive, choose Eject, and then unplug your Nook.
 - Open Adobe Digital Editions.
 - Plug your Nook back in to your computer.
 - ADE should now ask if you want to authorize your Nook. Once your Nook is authorized, you should be able to copy your eBooks to it.
- ***I'm getting an error message in Adobe Digital Editions.***
 - Go to <http://help.overdrive.com/adobe-digital-editions/>.
 - If you do not find help there, email ereads@wheatonlibrary.org with your device name, the exact error you're getting, and at what point you are getting the error.
- ***I can't find the book on my Nook.***
 - **The book may not go to your B&N Library on your Nook.**
 - Check Library – My Documents or My Files on your Nook.
- ***I have a Sony eReader and my books open in Sony Reader Library instead of Adobe Digital Editions.***
 - **Transfer using Sony Reader library.**
 - Open the Reader Library.
 - Plug your Sony eReader to your computer via USB.
 - On the left side of the Sony Reader Library, click on eBook store. A page opens in the Sony Reader Library. On the top right corner, you want to click Login into your Account.
 - Once you are logged in, click on Manage Devices.
 - Authorize the devices that you want, if this is your first time; make sure to authorize your computer and the Sony eReader so you can download eBooks from Overdrive.
 - Once your computer and eBook reader is authorized, you can download eBooks from Overdrive. The .ACSM file downloaded will automatically open by the Sony Reader Library and the eBook will be downloaded to your computer. If somehow the Sony Reader Library does not recognize the .ACSM automatically, drag the file into the "Library" on the left column of the Sony Reader Library.
